

Q.

hen I began combining colored gemstones in my jewelry I saw the results were cool, warm and hot looks. Each color combination told a different story, so I named the brand Color Story. That was more than IO years ago and during that time I have learned

years ago and during that time I have learned much about what motivates my customer. She is a little more of a risk taker. Wearing color speaks more clearly about her personality than white diamond jewelry. It says she is in touch with her feelings and can express them. It is for this customer that I am designing Color Story.

The wonderful thing about working with color is exciting new combinations come together every season and make it fun to design new pieces. I draw inspiration from my children, from nature, from architecture... there is nothing that doesn't give a hint that it could be something else — even perhaps jewelry.

All of my collections, Moonlight, Manhattan Pave, Charming, Rhapsody, etc. offer superbly custom cut and matched gemstones of the finest quality set in beautifully executed mountings that will brighten your day and illuminate your night. To view the entire collection, visit our website www.colorstory.com.
